

Pencllic DeskPad M3 & M4

The Pencllic` DeskPad is your foundation for a stylish and ergonomic desk setup!

Complementing our range of ergonomic keyboards and mice, the Pencllic DeskPad is the foundation for a uniform and elegant work space. The DeskPad's large working surface offers more freedom of movement and comfort and prevents repetitive static movements often associated with smaller mouse pads. Its superior cushion creates a warm and comfortable resting surface for your hands and wrists while its washable textile-weave surface ensures smooth movement for your mouse.

Choose between 2 colors and sizes for personal preference and desk size. The smaller DeskPad M3 is suitable for compact keyboards like Pencllic C3 or KB3 while the M4 is perfect for full size keyboards.

A little innovation – a lot healthier way of working!

1. Improves precision
2. Smooth textile weave
3. Stitched edges
4. Non-slip textured rubber base
5. Spill-proof and washable
6. Large desk pad with superior cushion and plenty of room for a keyboard, a mouse and more
